Of Ethical Manufacturing

Every pipe we make carries a **promise**.

From our facility in Rajgarh, Madhya Pradesh, Aquatic Pipes & Tubes Private Limited manufactures 100% virgin HDPE pipes that power critical water infrastructure and large-scale irrigation projects across India. Every metre carries one promise — uncompromising quality, complete transparency, and a record of zero complaints.

CREDENTIALS

Built on ethics. Proved by results.

Aquatic Pipes & Tubes Private Limited was incorporated on **17 May 2018** by **Mr. Ghanshyam Gupta**, a former Customs & Central Excise Officer with over 20 years of industry oversight. Having seen first-hand how widespread adulteration was causing project failures and waterway contamination, he set out to build the alternative — a manufacturer that would prove, through its track record rather than its promises, that ethical manufacturing is both possible and commercially sound. **No recycled resin. No shortcuts. Full transparency, always.**

Zero Complaints

Over 12,000 km of HDPE pipes supplied to government agencies and private contractors across MP, Rajasthan, UP and beyond — without a single complaint about quality, dimension, pressure rating, or performance. A demonstrated record, backed by our BIS compliance history and validated through client feedback.

Open Door Policy

Our manufacturing facility remains open for inspection by clients, government agencies, contractors, and authorised inspectors at any time — without prior notice. We welcome unannounced audits because our process has nothing to conceal. How many of your existing suppliers can truly make that claim?

What We Stand For

- **100% Virgin Resin — Non-Negotiable**
Only virgin IS 7328-grade granules — never recycled, never compromised.
- **In-House BIS QC, 24x7**
Every pipe manufactured and tested to IS 4984:2016 in our own BIS-approved laboratory.
- **Ethical & Made in India**
Sited in rural Rajgarh to create local jobs and curb migration — backing Make in India & Skill India.
- **Compliance, Year After Year**
BIS-appreciated for constant IS 4984 compliance, independently re-verified through annual testing.

Karishma Gupta (Director) **+91 93405 87899**

HDPE pipes engineered to outlast everything.

100% virgin PE100 resin. Produced on world-class KABRA-KOLSITE extruder lines and tested in our in-house BIS-approved laboratory — dimensional, hydraulic, and material checks before every dispatch.

HDPE Pipes

High-Density Polyethylene pipes for potable water, irrigation, sewerage, and industrial applications — straight 12-metre lengths for diameters above 110mm.

DIAMETER	PRESSURE
125–400 mm	PN 4 – PN 10
LENGTH	GRADE
12 m straight	PE100
STANDARD	COPPER EXTRUSION
IS 4984:2016	Available

HDPE Coils

Coil-form pipes for last-mile delivery, drip systems and rural schemes — fewer joints, lower leak risk, and flexible laying around obstacles. Optional co-extruded copper wire for tracing.

DIAMETER	PRESSURE
20–110 mm	PN 2.5 – PN 10
COIL LENGTH	GRADE
100–550 m	PE100
STANDARD	COPPER EXTRUSION
IS 4984:2016	Available

Pinkesh Gupta (General Manager — Sales) **+91 75097 56568**

From virgin resin to certified dispatch, every pipe passes through four tightly controlled production stages — each one tested and documented before it moves to the next.

STEP 01**Virgin PE100 Resin**

Virgin resin of IS 7328 specification — the only raw material BIS permits for IS 4984 pipes.

STEP 02**KABRA-KOLSITE Extrusion**

World-class extruder lines run at 8–12°C controlled water temperature.

STEP 03**In-House BIS Lab Testing**

Dimensional, hydraulic & material testing, 24×7, before dispatch.

STEP 04**Certified Dispatch**

Marked to IS 4984:2016 with full documentation and traceability.

Why choose Aquatic**Engineered for 50+ years**

Corrosion-free HDPE with leak-tight fusion joints — built to outlast GI and concrete across decades of water service.

**Proven across 12,000+ km**

Supplied to government and private projects with zero complaints on quality, dimension or pressure rating.

**Full range, one source**

HDPE pipes and coils today, PVC · UPVC · PPR next — everything for your water network from one certified manufacturer.

**Certified & documented**

BIS, ISO 9001:2015, virgin-resin invoices and project performance reports — all available on request.
